

New Premises...

We are delighted to confirm that all the hurdles to building new medical premises for Churchdown and the surrounding areas have at last been overcome. The building project was given final legal approval last week and the practice met yesterday with Brackleys, our developer, along with Stepnell Ltd, the appointed construction firm to discuss the building programme.

Work will commence on the site on Monday 27th March and it is anticipated the new premises will be available for occupation in spring 2018. We will post monthly updates on the building progress on our website and our patient participation group will be kept fully informed during key stages of the development.

This project has taken many years to come to fruition and we are grateful for all the community support we have received to enable this to happen. We can now look forward to providing primary care for our patients in a truly modern, comfortable and fit for purpose medical building.

On behalf of Dr. J. Halliday & Partners of Churchdown Surgery
